

QUESTIONS OF THE COMPETITION PARTICIPANTS AND ANSWERS OF THE COMPETITION JURY

For the reconstruction and adapting of Belgrade Fair Halls 7, 8 and 9

1st GROUP OF QUESTIONS:

QUESTION I/1: Is it possible to get photographs of the lattice structure above the suspended ceiling?

ANSWER: The subject photographs of the lattice structure are in the attached folder.

QUESTION I/2: Is it possible to get the archive photographs of the facilities after construction?

ANSWER: The subject archive photographs are in the attached folder.

2nd GROUP OF QUESTIONS:

QUESTION II/1: Can you define the boundaries of the facilities (halls) at which the subject reconstruction is? Is the boundary the eaves line or the façade wall line?

ANSWER: The boundaries of the facilities (halls) within which the adapting and purpose amendment is carried out are within the existing dimensions and volume.

QUESTION II/2: Does the planned investment understand also financing of the flexible floor slope of the conference hall, in respect of the purpose diversity?

ANSWER: The Competition Program specifies in the section 5.3 Competition Work Contents the participants shall justify the rationality and cost-effectiveness of the solution by the attached estimation of the investment value. Thus, the Investor will determine the scope and amount of the investment only after the Competition completion.

Within the Program, the conference halls have been imagined as multifunctional, so that the matter of the flexible floor and operational solution is the matter of the author's attitude and concept of each team, participant in the Competition.
